ABOUT ME

Proficient in creating intuitive and user-friendly front entities involving diverse projects, including Healthcare Ecosystem and Helpdesk government initiative. Having hands-on experience with TypeScript, Redux Toolkit, and Tailwind CSS, excelling in using these technologies to create a smooth user journey. Dedicated to being on top and being updated with the current frontend trends, which will assist in enhancing my skills with an objective to be innovative in web development.

EXPERIENCE

Freelance Corner, Natun Bazar, Sadar, Mymensingh — *Frontend Developer*

October 2022 - April 2023

Leveraged my front-end development expertise to contribute to various websites built with React JS.

Excel Technologies Ltd., House #13, Road #07 Block #F, Banani Dhaka-1213 — *React Developer*

May 2023 - March 2024

Frontend development on multiple projects using React.js. Contributed to various website projects, applying React.js expertise. Ensured high-quality UI/UX and optimized performance.

PROJECTS

Carepro — Health Care Ecosystem

- Contributed to the development of a government-sponsored healthcare ecosystem project within a collaborative team environment.
- Played a key role in designing and implementing features to manage medical treatments, patient records, and doctor interactions.
- Facilitated the integration of diverse medical facilities under different departments.
- Collaborated effectively with team members and stakeholders to meet project objectives and comply with government regulations.

Git Repository: Private Project

Technologies: TypeScript, React.js, Redux.js, RTK Query

SKILLS

- JavaScript
- TypeScript
- React Js
- Next Js
- Redux Toolkit
- Node Js
- Tailwind Css
- Git & GitHub

LANGUAGES

- **English:** *Business Fluent*
- **Bangla:** *Native*

js-utility — A Library Like Lodash

- A modern JavaScript utility library delivering modularity, performance & extras.
- **JavaScript** library which provides utility functions for common programming tasks using the **functional programming** paradigm.
- It can be broken down into several main areas: Utilities, Function, String, Array, Collection, Object, Sequence.

Git Repository: <https://github.com/eaysin-arafat/js-utility.git>

Technologies: JavaScript

Help Desk — Problem Management System

- Developed a Helpdesk system adaptable for various projects or institutions.
- Implemented role-based relationships to facilitate efficient problem resolution, ensuring the right individuals have appropriate access levels.
- Incorporated JWT token-based authentication to enhance security, allowing for secure access control and user authentication.
- Integrated a client-to-administrator messaging system within the application for streamlined communication.
- Incorporated JWT token-based authentication for enhanced security, allowing secure access control and user authentication.
- Integrated a client-to-administrator messaging system within the application for streamlined communication.

Git Repository: Private Project

Technologies: TypeScript, React.js, Redux.js, RTK Query, Reach Hook Form

File Drive — File management platform

- FileDrive is a comprehensive file management platform designed to streamline the process of storing, sharing, and managing files among individuals and organizations.
- With FileDrive, users can securely upload files of various types, including PDFs, images, PNGs, SVGs, and more.
- Users can create organizations to manage files within specific groups or teams and grant role-based access to files.
- The platform offers advanced features such as category-based file organization and authentication powered by Clerk. FileDrive also integrates with Convex, a third-party service, for backend operations.

Git Repository: <https://github.com/eaysin-arafat/file-drive.git>

Technologies: JavaScript, React Js, Next Js, Clerk(Authentication), Convex(Backend), Tailwind Css

EDUCATION

Ananda Mohan College, Mymensingh — Bachelor of Science

2018 - 2021

CGPA - 2.88 (Out of 4.00)
